

ODCA

Mission Statement: To assist in the construction industry, by bringing together the people and resources to foster their business needs.

Values: Our members are to conduct business with the utmost integrity; by completing their work in a professional and good workmanlike manner. Each member shall ensure their businesses are providing a work environment that is safe for their employees and have regard to WSIB.

ODCA Member Benefits

ODCA in the Community

We are interested in participating in projects that will benefit our community. This can be done through our membership by volunteering time, material or contribution to an approved project by the ODCA. Assisting our community through "special projects" brings awareness of our association and its members.

Networking with ODCA

ODCA will be hosting general meetings that will bring together our members to discuss their achievements and perhaps create opportunities to assist each other. At our general meetings we will have a Question and Answer period to discuss our member's situations at work that is of concern to the wellbeing of our membership. A list of upcoming events can be found on our website, by visiting our News & Events page.

Marketing

To be recognized throughout our community by advertising through signage, sponsorship, and media venues. Members are encouraged to become our Ambassadors by telling other construction associates to join our association and become a voice for construction.
